# POWERFUL SOLUTIONS FOR YOUR DEALERSHIP WORKFLOW

## IT and Cybersecurity

Customized service to fit your needs — from hardware and software upgrades to maintenance, monitoring and administrative support.

## Dealership Operations

Win the numbers game with electronic payments, streamlined AP processes, Payroll solutions and more. Simplify communications with our integrated telephony solutions.

## Sales and Inventory

Sell strong with one solution for your entire Sales workflow — from lead generation to inventory to quoting to customer follow-ups.

## Leasing

Effectively manage your Lease, Rental and Maintenance operations.

## Fixed Operations

Get your customers on the road faster with strong service solutions.

## OEM Integrations

80+ Heavy Truck OEM-specific integrations. Having established close relationships with our OEMs, we combine their input with your feedback and what's going on in the broader industry to create tight integrations that help you work efficiently and effectively.

# “ WE COULDN'T HAVE SAID IT BETTER

*CDK values insights from my dealer group. The economic landscape is constantly changing and we require vendors that can adjust quickly. There is no “one size fits all” software application – CDK recognizes that and offers a variety of solutions that can be customized in a multitude of ways.*

Kristi Brockett | Corporate Business System Manager The Larson Group Peterbilt

# BECAUSE ONE SIZE DOESN'T FIT ALL

Whether you're an independent dealer or a multilocation dealer group, let's build a DMS that's right for you, right now.
