

Decisiv SRM Powered Mobile App

Decisiv and Truckmore usher in a new era of digital innovation for heavy-duty truck dealerships, trailer dealers, parts and service providers, rental, leasing, and logistic providers. **Integrated with Decisiv SRM and the dealer's DMS**, the business-branded mobile app delivers value across every department in sales, service, parts, leasing, rentals, and F&I.

Service Management

Integrated with Decisiv, enable customers to load their fleet on their smartphone; easily schedule service appointments and track service history, invoices, and purchases.

Parts Request

Deliver a superior customer experience by enabling customers to order and pay for parts from the convenience of their smartphone.

Digital Showroom

Bring the showroom to your customer's smartphone with live inventory feeds and the ability to trade-in, pre-order, schedule test drives, and apply for financing.

Geofencing

Launch targeted notifications to alert active buyers when they drive on competitors' sales, service and parts locations, truck stops, and high traffic areas.

Mobile Coupons

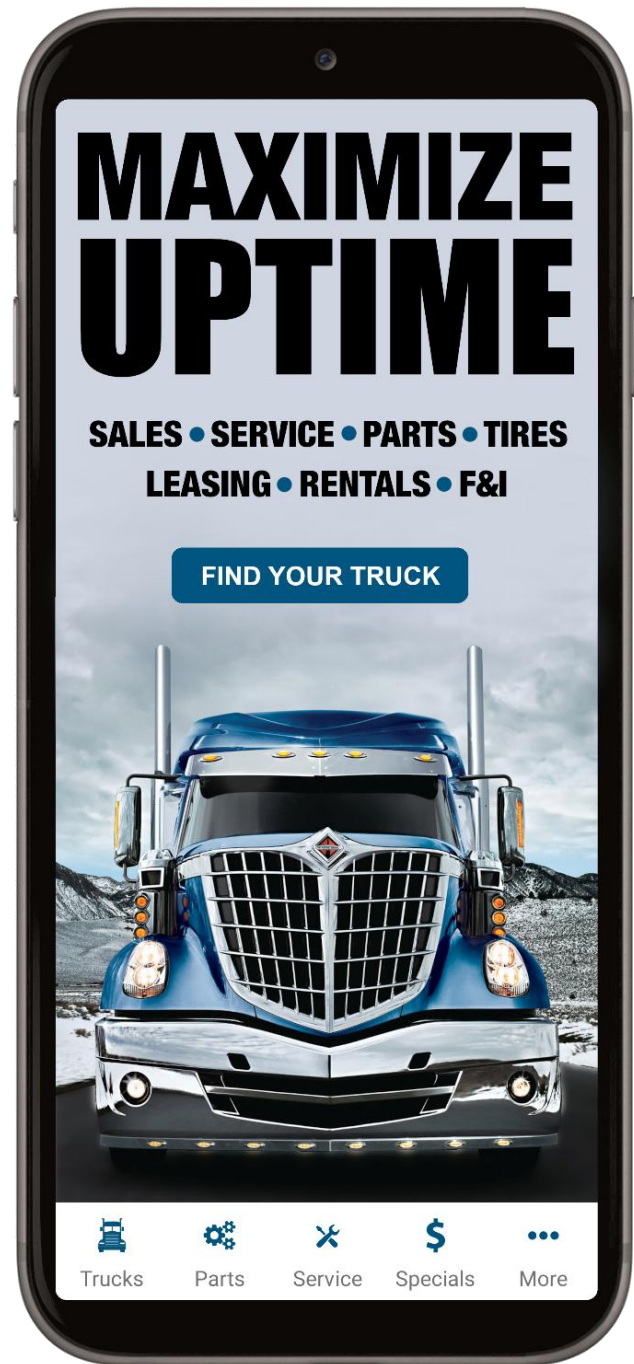

Increase customer spend on services, parts, inventory and merchandise with compelling mobile coupons. Your app is also integrated with Excelerator, RepairLink, Paccar Parts.

Third-Party Integrations

Make it easier for customers to do business with you by integrating your app with any DMS, Uptime Pro, International 360, Decisiv, etc.

Lead Generation

Integrated with your CRM, grow your business with a lead generation program that delivers thousands of leads.

Loyalty Rewards

Improve customer retention by rewarding customers for frequent purchases in sales, service, parts and F&I.

Mobile Payments

Integrated with Fusion, give customers the convenience to pay from their mobile phones, desktop computer or dealer mobile app.
